

## OPEN CALL FOR PAPERS

### Decision Making in Manufacturing and Services (DMMS)

<https://journals.agh.edu.pl/dmms/>

p-ISSN 1896-8325, e-ISSN 2300-7087

DMMS is a peer-reviewed, annual, open access and APC-free journal dedicated to publishing papers of interest to the entire Decision Making community, including academic and industry researchers and decision makers working at the interface of research and implementation in manufacturing and services. DMMS objective is to serve the entire Decision Making community, including academic and industry researchers and decision makers working at the interface of research and implementation in manufacturing and services. The journal encourages a variety of methodological approaches to decision making in manufacturing and services. The papers may be theoretical or empirical, analytical or computational, and may be based on a variety of disciplinary foundations such as management, economics, operations research, computer science, engineering, psychology, etc. The DMMS also publishes state of the art reports by invited authors, critical reviews and special issues devoted to particular topics.

#### **Open call: sustainable decision making**

Successful striving to sustainability and long-term resilience in a constantly changing world depends very much on availability of adequate decision support methodology and tools. Thus, an urgent need evolves to provide and disseminate them. This is why DMMS journal invites original research papers for its special issue on sustainable decision making.

#### **Scope and Themes:**

This special issue seeks to explore theoretical and practical aspects of decision-making support. Innovative research, case studies, and theoretical contributions that deal with sustainable decision making.

#### **Submission Guidelines:**
